http://localhost:8089/newPassword?password=NEW_PASSWORD¤t=CURRENT_PASSWORD

5. Server Settings

- Change Port: http://localhost:8089/change-port?port=NEW_PORT

6. Help & Documentation

- Access Help: <http://localhost:8089/help>

Sundance Viewer - User Guide

Troubleshooting

1. Webpage Not Loading?

- Ensure the URL is correctly formatted and accessible.
- Verify that the server hosting the webpage is online.

2. Unable to Change Settings?

- If password protection is enabled, confirm that you are using the correct password.
- Restart the application after modifying the port settings.

3. Web Server Not Responding?

- Confirm that the application is running and listening on the correct port.
- Check for conflicts if another service is using port 8089.
